

On Thursday March 26 @ 2:05 pm, Bon Accord Community School will proudly be celebrating an important milestone we set in September. We set out to run the same amount of kilometers, 5373 km, which Terry Fox ran in his "Marathon of Hope". This was completed by staff and students in 110 days. Mrs. Garvin presented the students with a ribbon to signify their accomplishment.

BACS is honored to have a speaker from the Terry Fox Foundation coming to speak to us, his name is Jonathan Karpetz. He brought a small token for the children and a copy of the artificial leg that Terry used. We are very lucky to have him recognize our achievement.

Mrs. Garvin and Mrs. Zembal have done a fabulous job of tracking and tallying all of our laps. Thank you so much!

Bon Accord Community School staff and students are continuing our fight to find a cure for cancer by entering a BACS team, made of staff members and our superintendent, Dr. Michelle Dick, in the "Relay For Life" on May 23, 2009 in their effort to raise money for cancer research and cure. Our school slogan will be "***Coins for Cancer***". BACS staff and students invite family and community to help support this important cause by bringing in or sending in a donation to support the team.
